## /OUR CUP RANGE

### WE ARE ON A JOURNEY TO MAKE THE MOST SUSTAINABLE AND ENVIRONMENTALLY CONSCIOUS PRODUCTS ON THE AUSTRALIAN MARKET

#### Australian made

Castaway® cups are manufactured in our own facilities right here in Australia. By investing in local manufacturing, we not only support our local economy, but we also reduce transportation to a local level. All our facilities are HACCP certified ensuring strict control of food safety and product quality.

#### Recyclable

Castaway® cups are accepted for recycling by many councils throughout Australia. Our new Aqueous Cups have a water-based coating and are recyclable where facilities exist.

#### Product innovation

We have developed an aqueous coated cup – making it easier to recover valuable resources that might otherwise end up in landfill. Turn to page 6 for more on our aqueous coated paper coffee cups.

#### Sustainably sourced paper

Castaway® cups are made with paper sourced from certified managed plantation forests. Paper is both renewable and recyclable, contributing to a circular economy where materials can be reused to produce new products.

#### Water based inks

We only use water-based inks for printing Castaway® cups, which are free from harmful toxic chemicals, and are made from naturally occurring substances.

#### BrandBuilders Custom Printing

Our entire range of coffee cups can be custom printed with your brand or imagery. Turn to page 5 to read more about the steps to build your brand.

## CHOOSE YOUR CUP LIDS

### Combo Lids

Our Eco-Smart® Combo lids offer a secure fit around the cup for a safe and leak-free experience. The ergonomic design of the sipper creates a comfortable drinking experience.

Fits all Combo Cups: 8,12 & 16 oz

### Classic Lids

Classic cup lids are designed for baristas who prefer the two-lid system for easy cup size differentiation.

Fits Classic Cups: 6 & 8oz

Fits Classic Cups: 12 & 16oz

### Sugarcane Classic Lids

Sugarcane cup lids are designed to fit our aqueous coated cups and our Classic cups for a totally compostable option.

Fits Classic Cups: 6 & 8oz

Fits Classic Cups: 12 & 16oz

# EVERYTHING COFFEE /CUSTOM PRINTING

## BUILD YOUR BRAND

### Custom Printed Coffee Cups

Our entire range of coffee cups can be custom printed with your brand or imagery. You can start with a short minimum order quantity of 24,000 coffee cups for a short print that will get you in the hands of your customers in only 6 weeks.

### Artwork

Our in-house graphic designers can either convert or enter your artwork onto our template for approval. Please ensure that the design is finalised prior to submitting your artwork to us. This means all the elements in your concept such as any text, logos, etc. have all been confirmed. We have an in-house graphic designer who will fit it into our template, however any changes to the design after this has been done may incur extra charges.

### Delivery

We deliver to locations Australia-wide. The freight cost and delivery time will be determined once you provide us with your delivery postcode. We deliver in unmarked cartons with no marks identifying our company.

### Enquire Now!

Contact us today to find out how we can build your brand and your business.

## /DOUBLE WALL CUPS & LIDS

Castaway® Double Wall Combo Cups are the ultimate solution for protecting hands from hot coffee or tea. The insulating air pocket between two layers minimises heat transfer, making it suitable for any type of beverage including hot teas without the need to double cup.

## /ENVIROBOARD® SUGARCANE CONTAINERS

Enviroboard Food Containers are the ideal choice for food service operators looking to reduce their environmental impact. Made from renewable sugarcane, these containers are compostable, while their matching secure, rPET lids offer optimum visibility, and are recyclable – making this range the perfect takeaway solution.

200 / carton

## Naturally sustainable.

Our Enviroboard range combines sustainable design with exceptional performance, using pulp that comes from sugar cane fibres (bagasse) – one of the world's most abundant annually renewable resources. Sugarcane bagasse is the dry residue left after sugar cane fibre has been pressed for juice. Being a renewable material it is low impact, and ideal for producing food packaging due to its high strength.

\* CERTIFIED INDUSTRIALLY COMPOSTABLE TO EN13432. CERTIFIED HOME COMPOSTABLE TO OK COMPOST HOME.

# EVERYTHING ELSE /REDISERVE® PAPER TRAYS
