Cast Away ®

eco-smart®
BettaSeal® Food Containers

BettaSeal® Food Containers are designed for superior presentation and extended shelf life for food. The hinged lid design is easy to use and the BettaSeal® closure locks in freshness.

Now with eco-smart® biodegrading technology

| Air-tight seal keeps food fresh | High clarity material | Double split hinge to keep lid open while filling | Stackable | Made from recyclable P.E.T. | Australian made in HACCP certified facilities |

*Eco-Smart P.E.T containers have been shown to biodegrade 41% after 710 days, under conditions that simulate a wetter biologically active landfill, using the ASTM D5511 standard test.
Note that a stated rate of degradation does not mean the product will continue to decompose. Testing continues on all Eco-Smart® products to track the rate of biodegradation.
All data will be made available on our website: www.castawayfoodpackaging.com.au
