SUSTAINABLE INNOVATION.

OUR COMMITMENT TO SUSTAINABILITY

At Castaway®, we have taken a responsible approach to delivering high quality packaging solutions that positively contribute to today and tomorrow's society. We are committed to sourcing the most sustainable products and ensuring environmental sustainability is a fundamental part of our core business philosophy. We are responsible for procuring sustainable, ethical and responsibly sourced materials, goods and services.

TOWARDS 2025

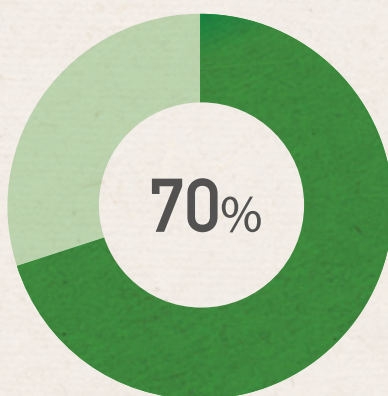

We are on a journey towards creating a circular economy where we maximise reuse, recycling and recovery, and minimise the amount of waste going to landfill. We promote sustainable packaging design, increased recycling rates and efforts to reduce packaging litter.

MPM Marketing Services is a signatory of the Australian Packaging Covenant (APCO), a sustainable initiative that encourages businesses to reduce the environmental impact of consumer packaging.

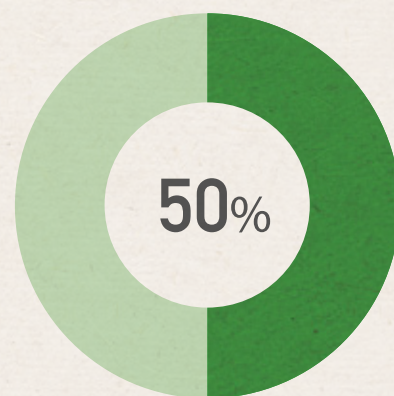

We are proud to be working towards the 2025 National Packaging Targets, an industry-driven collaborative initiative led by APCO to improve material types and help reduce the amount of waste entering the system, specifically:

100%
of all Australia's packaging
will be reusable, recyclable
or compostable by 2025
or earlier.

70%
of Australia's plastic
packaging will be recycled
or composted by 2025.

50%
average recycled content
will be included across all
packaging by 2025.

INNOVATION

Providing an alternative to traditional oil-based packaging and grown by nature, this new range has been designed with circularity in mind – helping reduce waste while creating a nutrient-rich compost, a highly valued commodity in the agricultural industry.

Castaway compostable
packaging products
are made from plants.

Castaway compostable
packaging is designed
to be composted with
food waste.

There it is turned
into a nutrient-rich
fertiliser...

...to help plants
grow!

SUGARCANE CONTAINERS.

Enviroboard® food containers are the ideal choice for food service operators looking to reduce their environmental impact. Made from renewable sugarcane, these containers are compostable, while their matching secure, rPET lids offer optimum visibility, and are recyclable – making this range the perfect takeaway solution.

GREAT FOR: Salads, curries, noodles, stir-fries, poke meals and more.

Containers

COMPOSTABLE SUGARCANE PACKAGING

Our Enviroboard range combines sustainable design with exceptional performance, using pulp that comes from sugar cane fibres (bagasse) – one of the world's most abundant annually renewable resources. Sugar cane bagasse is the dry residue left after sugar cane fibre has been pressed for juice. Being a renewable material it is low impact, and ideal for producing tableware due to its high strength.

WOODEN CUTLERY

Bring sustainability to the table with Castaway Tabletop solutions. Complete your offering with Envirocutlery® Wooden Cutlery and Castaway Paper Napkins, and let your customers feel good about their choices.

PAPER CARRY BAGS

Round out your offering with maximum convenience and quality with Castaway range of paper carry bags. Available in 7 sizes.

WHY NOT BRAND YOUR BAGS?

Custom-printed paper bags give your packaging suite a unique look that will stand out from the crowd.

SUGARCANE CLAMS.

Enviroboard clams are made with natural and renewable sugarcane pulp to provide a packaging solution with a cleaner life cycle. Made from renewable materials and completely compostable, the Enviroboard range offers an attractive solution for any business looking to reduce their environmental impact.

GREAT FOR: Salads, pasta, rice dishes, curries, burgers and more.
