

TRANSPARENT GLASSINE PAPER BAGS.

Castaway Transparent Glassine Paper Bags are the perfect alternative to plastic produce bags! Designed to reduce pilferage in self-service outlets, they provide a convenient solution when packaging baked goods. They offer businesses the opportunity to reduce their environmental impact while showcasing their products.

APPLICATIONS

Ideal for serving cakes, pies, paninis, hot dogs, hot wraps, croissants and more in a hot cabinet.

MADE FROM RENEWABLE RESOURCES

Made from 100% bleached virgin fibre, sourced from a FSC and PEFC-certified paper mill, these paper bags offer a natural and environmentally friendly alternative to plastic.

WHAT YOU SEE, IS WHAT YOU GET

All tannins and lignins are removed from the paper to give the bag its transparent body, so the contents are easily visible – eliminating the need for checkout staff to open them to see the items.

IDEAL FOR MID TO HIGH-VOLUME OUTLETS

Perfect for hot cabinet display, these bags are suitable for use in supermarkets, delicatessens, large restaurants and bakeries.

PERFECT FOR BAKED GOODS

These bags are moisture and grease resistant, and ideal for packaging baked goods.

CLEARLY, A BETTER ALTERNATIVE TO PLASTIC.

Plastic bag bans have been introduced in numerous countries worldwide over the past several years. Many businesses in Australia and New Zealand have supported the move away from single-use plastic by seeking more sustainable solutions.

Overall, transparent glassine paper bags offer the same visibility to plastic with superior performance while being environmentally sound.
