As a customer, you can be confident you're not only investing in the best possible design and the highest quality, but also in products that are as innovatively sustainable as is possible.

## A FULL RANGE OF CERTIFIED COMPOSTABLE COFFEE CUPS

You don't have to worry about your environmental impact when you drink your takeaway coffee, a commercially viable solution is already here in Australia. ENVIROCUPS® are certified compostable to AS 4736 so that you can rest assured your coffee packaging is compliant. These paper coffee cups are designed with reliability, quality, and sustainability in mind.

## CERTIFIED FOR PEACE OF MIND

Certified compostable to AS 4736 by the Australasian Bioplastics Association, this range of cups carry the Seedling Logo - a trusted sign of compliance.

## THE FEATURES

ENVIROCUPS® have been designed with specialty coffee and sustainability in mind. These cups are made from sustainably sourced, aqueous coated board, certified compostable to AS 4736, and compliant in all states and territories.
