

THAT'S A WRAP!

Our range of cling film solutions will ensure superior shelf presentation and protection of your meat products. The shelf-life of your product is extended with an innovative PVC film structure which controls oxygen transmission and retains colour.

THE RANGE

New and improved

Made with at least 60% post-consumer recycled content, Aqua Cell trays play an important part in food safety, storage and shelf life, transport and product quality. Now with an improved design, these Australian made produce trays contain less plastic, are stronger, and retain more fluid!

AUSTRALIAN MADE IN HACCP CERTIFIED FACILITIES
